- Vegan

Unlike traditional makeup, airbrushing sprays a fine mist so the makeup blends evenly on the skin. The foundations provide the flawless coverage of your preference (from sheer to opaque) and minimizes skin imperfections. The result is a beautiful and natural finish. Airbrush makeup is the gold standard amongst professional makeup artists and their celebrity clientele for a flawless finish, superior coverage and lightweight formulas that look like skin-not makeup. The patented airbrush technology transforms the makeup into a micro-fine mist that floats onto skin, creating weightless layers of the most even, uniform, thorough coverage. Airbrush makeup combats sweat and stays active without leaving a trace or having to reapply. Our Airbrush makeup a long-wear formula that is good-for-your-skin and great for all skin types.

### **High-Def Close Ups**

Celebrities and fashion models use Airbrush makeup because it doesn't look like makeup!

### **Airbrush Makeup Has You Covered**

Covers discoloration, blemishes, and even dark circles! You'll look brilliant at any time of day.

**Flawless In Record Time**

Speedy application and takes less time to apply. Imagine the time you save!

**All Day Coverage, Everyday**

Long lasting: No more touch-ups throughout the day!

**Hygienic + Less Wasteful**

No contaminants on your skin. Use less makeup for a full coverage.
